

1

Hi, my name is Malik and i'm studying the Master in Game Design at the ZHdK. The informations you provide for this survey is a part of my Master thesis and it will help me to create a toolkit for Game Developers, who want to design a relaxing game experience for the players. You don't need to be a game developer to fill out this survey. You can write here your name or username if you want:

Seni

2

How many hours do you spend, on playing video games per week?

5

3

Do you play video games to relax?

No

4

Please name at least 3 video games, which offer in your opinion a relaxing experience, with an explanation as to why you feel relaxed (more answers are also welcome):

The Witcher 3

Trine quadrilogy

To the moon/finding paradise

Stories are entertaining. Gameplay is kinda basic and easy for everyone.

5

Please name at least 3 video games, which offer in your opinion a stressfull experience, with an explanation as to why you feel stressed (more answers are also welcome):

League of Legends

CS : GO

Call of Duty (any) Multiplayer

You want to get on the top on each game you play. And sometimes, other players flames you for nothing. After that, you become toxic aswell.

6

Am i allowed to quote your statements?

Yes

Thank you very much for participating, you can type here other comments, in regards to relaxing game experiences. Please share this survey with other people, to get as many valuable information as possible!

Solo based games are relaxing but, most of the time, we like to play in multiplayer to get the competitive experience (which is good and bad). Even tho we can play solo games competitively (speedruns, nohit...)
