

1

Hi, my name is Malik and i'm studying the Master in Game Design at the ZHdK. The informations you provide for this survey is a part of my Master thesis and it will help me to create a toolkit for Game Developers, who want to design a relaxing game experience for the players. You don't need to be a game developer to fill out this survey. You can write here your name or username if you want:

Matt Shipton

2

How many hours do you spend, on playing video games per week?

2

3

Do you play video games to relax?

Yes

4

Please name at least 3 video games, which offer in your opinion a relaxing experience, with an explanation as to why you feel relaxed (more answers are also welcome):

Cities Skylines (you can take the game at your own pace and build something up over time), **Mini Metro** (simplicity), and **Floating Point** (simplicity & music)

5

Please name at least 3 video games, which offer in your opinion a stressfull experience, with an explanation as to why you feel stressed (more answers are also welcome):

Warframe (it can quickly go from acing a map to being destroyed), **SMITE** (tables can turn quickly, opposing team can do very unexpected things), **Elite Dangerous** (same reason + interdictions)

6

Am i allowed to quote your statements?

Yes

7

Thank you very much for participating, you can type here other comments, in regards to relaxing game experiences. Please share this survey with other people, to get as many valuable information as possible!

No response
